### **Who We Are...**

**Mazand IT Ltd** is a custom software services firm based in Bangladesh, We have extensive experience in Jute ERP software & Jute consultancy, Bus online ticketing ERP Software And Accounts Inventory Software. Our experienced staff of professionals worked with a wide array of platforms, languages, and tools in the course of our various projects.

### **What We Do...**

Quite simply: we write codes. However, unlike most software companies, we realize that's only part of the job.

### **We don't just write code...**

We develop professional software. This is why our clients choose **Mazand IT Ltd.** Many companies can find programmers to generate code. However, few have the experience to produce professional quality software. Our ability to develop code is only the beginning of our capabilities. Being a “custom” firm, **Mazand IT Ltd** is able to provide our clients with a variety of services. A few of the services available from **Mazand IT Ltd** includes:

---

System Architecture and Design

---

Development

---

Project Management

---

IT Support and Network Administration

---

Testing and Quality Assurance

---

## Feasibility Studies

---

Technical Documentation, Training and Jute industries consultancy like Machine wise hands setup, Wastage control & process loss, machine wise productivity calculation, Cost analysis and count wise costing documentation etc. **Mazand IT Ltd** services are available on both a fixed and variable cost basis.

---

**Partnerships...** Our goal at **Mazand IT Ltd** Software is to become our client's first choice for software services. To accomplish this, we strive to exceed our client's expectations. **Mazand IT Ltd** clients cannot simply be satisfied with the job we do they must be impressed. In this manner, **Mazand IT Ltd** strives to builds a long lasting partnership and ensures client satisfaction. It is upon this foundation that our clients are confident in returning for future development needs.

**Experience...** Providing quality software services begins with 10 years' experience in jute industries and Bus Management ERP Software. **Mazand IT Ltd** Software professionals have years of experience in design, development, and testing of software projects. It is this experience, along with our dedication to giving clients the best quality service possible, which sets **Mazand IT Ltd** apart from other firms.

## EXPERIENCE :

### Dynamic...

As a custom software development firm, **Mazand IT Ltd** Software has amassed an impressive resume of projects. It's the custom nature of our development projects that has enabled **Mazand IT Ltd** to acquire vast experience in many diverse areas of software development. Our experience, in conjunction with our quality personnel, enables **Mazand IT Ltd** to be dynamic enough to tackle almost any software development project but special we're only one experience in jute industries area. **Mazand IT Ltd** has a proud history of utilizing experience to provide our clients with the best services possible. This difficult task is accomplished by applying experienced personnel to every project. **Mazand IT Ltd** was founded on the principle of gathering an elite group of software engineers and professionals, and leveraging their collective abilities. Naturally, each of these "producers" brings their own particular specialization and experience to the table. Once they join the **Mazand IT Ltd** team, we cross-train our consultants to diversify and increase their overall skills. The result for our clients is a group of individuals that can genuinely contribute and have a positive impact on development projects.

Areas of Expertise... **Mazand IT Ltd** has experience in many different aspects of the development process. Because we are a custom firm, there are no limits on what projects we can undertake. It is this ability that has enabled **Mazand IT Ltd** to accumulate experience in so many diverse areas. A few of these include:

- ✓ 10 + experience jute industries (ERP) Software analysis, development, implement, service and continuous development with a big MIS team at world largest jute yarn industries.

- ✓ Web-Enabling Applications
- ✓ Point-of-Sale and General Business Services Applications
- ✓ System Architecture and Implementation
- ✓ Client/Server Applications and Distributed Systems
- ✓ Systems Integration
- ✓ Jute Project Management Consulting like
- ✓ Machine wise hands setup
- ✓ Wastage control & process loss
- ✓ Machine wish productivity calculation
- ✓ Cost analysis and count wise costing documentation etc.
- ✓ Our services are available on both a fixed and variable cost basis.
- ✓ Technical Documentation and Training

No matter what your industrial development challenge, **Mazand IT Ltd** consultants are a valuable resource.

**Languages, Platforms, and Tools...** The following lists just a few of the languages, platforms, and tools with which we have experience:

**Web Technologies:** .NET, XML, HTML, Apache, MySQL, **Platforms:** Windows (XP back to 2.x), UNIX (Linux)

**Database Engines:** MySQL Enterprise Edition.

**Tools & Methodologies:** COM, USB, RS-232 and more

**Networking:** Wireless, LANs/WANs, TCP/IP, Windows Networking, DNS, NIS, VPNs, VNC, and more

**Web Experience...** Although Windows and Web development share many common traits (GUI design, backend database hooks, etc.), there are also many significant differences in the underlying application architectures that one must fully understand to create a successful Web-based applications. Over the years MAZAND IT LTD.has gained this type of experience through our projects in both the Windows and Linux environments. MAZAND IT LTD.has Web-enabled existing applications, developed numerous Web-based systems, utilized various backend databases, and setup/administered: Web servers, FTP sites. The Web development market is a fast-paced environment where technology is always changing. We stay abreast of the latest changes in tools and languages including XML and others.

## **AVAILABLE SERVICE :**

MAZAND IT LTD.Software provides its clients with a wide range of services spanning the entire development process. Clients can utilize MAZAND IT LTD.for the entire development cycle or only for selected portions that require additional support and consultation. Our services are available on an hourly or project basis.

At BD SOFT ZONE, we draw upon our vast experience to provide our customers with the best possible services. As a custom software development firm, there are no limits on what projects we can undertake. However, most software development efforts require the same basic types of services. Some of the common services available from MAZAND IT LTD.includes:

**System Architecture and Design...** Design is often the most critical phase of any software development effort. In many cases, the quality of the finished software is directly proportional to the quality of the initial design.

**Development...** The key to quality development is sharp people with a well thought-out plan. Good organization allows developers to modularize the development process. This results in rapid implementation of a system that can be easily tested and expanded for future versions. MAZAND IT LTD.

provides a highly qualified high profile and experienced technical staff with years of software development experience.

**Project Management...** MAZAND IT LTD.clients often require additional consultancy and managerial support to supplement their in-house development efforts. MAZAND IT LTD.is uniquely qualified to provide this vital support. The professionals at MAZAND IT LTD.have worked on countless software development efforts, and as a result are well equipped to quickly anticipate and address problem areas on a given project. MAZAND IT LTD.can serve as troubleshooters or, if need be, assume management of an entire project.

**IT Support and Network Administration...** MAZAND IT LTD.has IT network professionals familiar with all types of heterogeneous networks. Clients have utilized our services to design, install, and manage their network systems.

**Complete Turnkey Systems...** Complete, integrated systems are no problem for BD SOFT ZONE. Integrating hardware and software to form a new automated system is a classic utilization of BD SOFT ZONE's resources. MAZAND IT LTD.has negotiated discount hardware reseller agreements with Network Appliance Computer Services to help provide our clients with a low-cost source for their hardware needs. No matter what your hardware needs are, from massive file servers down to desktop PCs, MAZAND IT LTD.can get it for you and often for less than buying it direct.

**Testing and Quality Assurance...** With our experience in the software development field, MAZAND IT LTD.can provide an extremely valuable third-party perspective, when brought in to test/QA another vendor's software. System testing is fundamental to the quality of any software. Although many developers take short-cuts and settle for only testing their software during development (Alpha-Testing), we at MAZAND IT LTD.always encourage our clients to include a distinct testing phase to any software project. This testing phase allows the system to be tested as a completed unit, and is usually done by someone other than the developer. In this manner, additional user feedback on the functionality and usability of the software can be integrated prior to initial release Completion of the testing phase is accomplished through preliminary use by actual end users of the software in the real world conditions of the client's site (Beta-Testing).

**Feasibility Studies...** Prior to committing substantial resources to a given project, often clients want to obtain more data on the obstacles related to successfully completing the project. MAZAND IT LTD.team members have experience serving in this “recon” type role. They can quickly and efficiently identify the primary and secondary “hot spots”, then prepare a Feasibility Report for the client. This report contains a ranked list of all the technical, logistical, and managerial problems associated with the proposed project. In addition, it provides preliminary estimates for cost and time.

**Technical Documentation and Training Services...** MAZAND IT LTD.consultants have developed numerous user manuals, reference guides, and introductory training materials to accompany our custom software over the years. This experience has provided us with the ability to quickly generate production quality documents. Rather than hiring technical writers (who are often unfamiliar with the underlying technology) to extract information from developers, many of our clients simply have MAZAND IT LTD.develop the supporting materials. MAZAND IT LTD.consultants have become so good at this in fact, that many clients have engaged MAZAND IT LTD.for the sole purpose of creating technical documentation and complete training programs.
